

Independently surveyed

Many vessels available on the Australian market have been “Self Assessed” by the builder or distributor. All Atomix vessels are Certified and Surveyed by independent 3rd party inspectors.

These inspections test the vessels for:

- Buoyancy
- Stability
- Floatation
- Maximum engine power and weight
- Crew and load limit
- Conformity to International Standards including:
 - EC Recreational Craft Directive - 94/25/EC
 - International Standards ISO 12271
 - CE Certification
 - Australian Standards AS1799
 - NZ Maritime Rule 40A Annex 1 (3)

Independent testing verifies the safety and performance from of your Atomix vessel from a host of internationally respected standards.
