2050 TREKER™

BREAKING THE STATUS QUO.

The all-new Stabicraft 2050 Treker redefines the way you experience the great outdoors. Unparalleled exploration and adventure are taking form in a distinct Stabicraft style, fuelled by a legacy of defiant design evolution.

The 2050 Treker aims at one of the most competitive market segments in North America, offering more across legendary Stabicraft fundamentals. Uncompromising safety, stability, and capability that is built to last.

The ultimate vessel for hunter-gatherers, thrill-seekers, nature lovers, and outdoor enthusiasts. Don't settle for anything less; break the status quo and Adventure with Confidence onboard the all-new Stabicraft 2050 Treker.

All weather protection that comfortably seats six adventurers away from the elements.

FULLY ENCLOSED CANVAS

Thoughtfully crafted, the new 2050 Treker's fully enclosed canvas design will protect you from the elements and extend your boating season. The multifunctional configuration is ideal for sunshades with airflow breathability or fully enclosed wet weather protection. It folds down quickly for storage, and an optional diesel heater is available. The 2050 Treker has you and your crew covered in all conditions.

Uncompromised usable space and deck access from bow to stern via walk-through windscreen.

DOUBLE DECK: ACCESS & SPACE

The 2050 Treker's broad head coamings, in combination with upper and lower bow deck platforms, create a highly adaptable space in the bow and increase the overall usable space on board. No box is left unchecked with 2x bow deck drains, multiple bow rail configurations, integrated drum winch provision, and seamless walk-through windscreen access to and from the cockpit. Once inside, the Treker utilises every inch of its deck and cockpit space to outclass competitors in its use of space and functional ergonomics, providing space on board for you to enjoy your adventures comfortably.

The capability of a much larger vessel providing you more boat for your buck.

CAPABILITY INSPIRING SAFETY

Confidence-inspiring safety is a competitive advantage of Stabicraft's new 2050 Treker, gaining the comfort, security, and stability of a much larger vessel. These attributes are not limited to offshore exploration but are equally applied to your adventures on inland lakes and rivers. The Treker brings Stabicraft's heritage of safety and stability to the 20ft open-top category. The 2050 Treker is a platform that inspires you to Adventure with Confidence.

TREKER™ PACKAGES

ADVENTURE

The Adventure package is ready to get you on the water, with full flexibility to build the Treker to suit your exploration style, including standard fitment features such as blade style secondary seating, and dual transom walkthroughs on both Port and starboard. The standard transom rigging box has options to add a bait board or live bait tank on top. This package is suited to any adventurer seeking to gain the maximum on water capability in this size class for their budget, as well as a specialist boater looking to tailor the platform to requirements.

SPORTFISH

The Sportfish package exhibits the most popular features in a Stabicraft of this size. It comes standard with a central fish box with dual transom walk-throughs, port & starboard windscreen wipers, elite bolster helm seats with storage seat box, and stage-1 belting-up paint in a range of selectable colours. The Sportfish package feature set targets a broad range of end users looking for a multi-purpose adventure boat. Whether it's fishing, exploring or commuting to your favourite summer spot with friends & family, the Sportfish package is equipped with all the features you need for your next adventure.

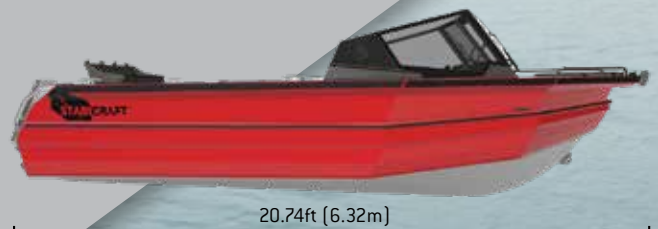

PROFISH

The Profish package is the top tier package which includes many of the popularly selected upgrade options. It suits purchasers that are looking to maximise the available feature set within their chosen boat length and expand the limits of their boating season. It's comprehensive canvas offers protection from the elements when it's cooler out while allowing for folding down and stowing out of the way when the suns out or for storage over winter. It includes premium suspension seating at the helm, a ¾ width fish box for large long-format fish, full EVA flooring for comfort and insulation, closed cell baffling inside each sealed chamber for noise reduction and stage 2 paint and an extensive list of further upgrades that can be selected.
