1450 SERIES

Stabicraft's 1450 Frontier pays homage to one of the most successful and versatile boats in Stabicraft's history – 1410. The 1450, however, is more exceptional than its predecessor. From family, diving, fishing, and adventure, you can do it all. It is the most well-appointed sub-5-meter open boat in its class. An absolute beast of a boat with lots of storage, the sides are high enough to lean against and wide enough to sit on. Built tough and very stable.

AVAILABLE PACKAGES

EXPLORER

The 1450 Explorer is a longer, wider and more solid version of its predecessor. It still gives you flexibility with a spacious tiller steer setup and added features like the forward seating, alloy rodholders and Stabicraft® Multiholders as standard. It is the most well-appointed sub 5 meter open boat in its class.

FRONTIER SPORTFISH

The 1450 Frontier Sportfish comes with a side console and upholstered seat as standard as well as the ever-reliable 70L Icey-Tek chilly bin.

With options like a bolt on live bait tank and removable baitboard the 1450 Frontier Sportfish means you have all the basics for chasing down your favourite fish

FRONTIER PROFISH

The 1450 Frontier Profish is a serious step up from the Sportfish version with additional stainless steel rodholders, belting up paint, dash windscreen and dual boarding platforms all as standard features. Coupled with optional features like port side dash and Fish Pro seats the 1450 Frontier Profish is ready to compete with much larger boats (and much larger fish).
